Index of Brides 265

Introduction

This book contains a list of marriages of white persons in Marengo County, Alabama, between the years 1818 to 1936. This list was sourced from C. A. Wood's *Marriage Records, Marengo County, Alabama* (Wood 2000) which was published on Angelfire free pages before Angelfire discontinued free page services.

- Marriages are arranged in alphabetical order sorted first by groom, then by bride, and then by the date associated with the marriage.

- Names are presented *exactly* as they appeared within the above-mentioned source, along with spelling errors. The details of marriages were hand-written, and oftentimes the handwriting of the persons who wrote those details appears to be little more than chicken-scratch to the untrained eye. As a result, there are many names which may have been incorrectly transcribed and some surnames are given with a variant or suggested alternative enclosed within parenthesis. When the handwriting in the record was too difficult to make out, it appears that guesswork came into play and uncertain names and initials are appended by an asterisk (*).

- Dates shown for each marriage should be treated only as *approximate* dates until corroborated by one or more primary sources. While C. A. Wood represented these as the dates of marriage, they do not always match with dates of marriage stated in published articles and citing family bibles, or with state marriage indices. As such, it is highly likely that the dates published by C. A. Wood could have been dates of marriage license issuance, dates of solemnization, or even dates of returns and recordings of marriage licenses.

- A small handful of duplicate records of some marriages have been observed in the list of marriages provided by C. A. Wood. No attempt has been made to eliminate such duplicates.

- With the marriages being arranged alphabetically by groom, using this book to research marriages of male ancestors in Marengo, Alabama, shouldn't be too difficult a task. To make it just as easy to research female ancestors, an Index of Brides is included at the end of this book. This index contains page numbers for all brides contained within these pages.

To have and to hold

from this day forward,

for better and for worse,

for richer and for poorer,

in sickness and in health,

to love, honor, and cherish,

till death do us part.
